
(1) Congressional hearings
GovInfo API, CHRG collection
every congressional hearing package issued 1995–2025
Enumerate the packages
36,378 hearings listed in a manifest before any file is retrieved (D1.1)
Download the MODS record and the transcript
one outcome recorded for every package; 1,253 renditions never digitized past the cover page (D1.2)
Parse and assemble the corpus
one row per hearing: committee, members, witnesses, dates, speaker-attributed turns; 4,448 empty rosters flagged, not dropped (D1.3, D1.4)
Science committee sample
2,352 usable hearings of the House Science and Senate Commerce committees, selected by committee identifier; 93.6 million words; feeds Step 1 (D4.1)
(2) Independent reference
C-SPAN Archives API
editorial abstracts of House, Senate, and joint committee programs, 1979–2025
Editorial abstracts
18,697 committee programs, written by people, independent of this pipeline; the reference the Step 1 summaries are checked against (D2.1)
(3) Firm disclosures
SEC EDGAR via sec-api.io
the complete Form 10-K archive, 1993–2025
Download the bulk archive
394 monthly containers, 305,140 filings, 34 GB; every container checked against the manifest (D3.1)
Build the filing index
one row per filing, joined to Compustat through the CRSP–Compustat link: 25,207 CIKs to 25,207 GVKEYs, one to one (D3.2)
Extract Item 1, the Business section
Extractor API for each S&P 500 report; 432 empty answers, 1.9 percent, refilled from the local archive (D3.3, D3.4)
S&P 500 Item 1 table
22,299 annual reports: text, provenance, usable flag; feeds Step 3 (D3.4)
Raw text documents
Computation without a model call
Output of the step
