
Note: all 560 Track 2 stance records placed on topic 78 (codebook v1.0), House Science and Senate Commerce hearings held 1999-2025. Each record was read against its cited sentences in a single assistant coding pass (Claude, 2026-10-22) and given a verdict on the model's label, an angle, and a policy direction; no human review yet. Years are hearing held years. Panels are the angles of the topic; records judged to carry no stance or to be off-topic are excluded. x ticks mark inauguration years.
