
Favors stronger consumer privacy and anti-spam protection

Favors less privacy or anti-spam regulation

Yearly net direction with 95% Wilson interval (at least 5 directional records)

Balanced

Note: all 547 Track 2 stance records placed on topic 65 (codebook v1.0), House Science and Senate Commerce hearings held 1999-2025. Each record was read against its cited sentences in a single assistant coding pass (Claude, 2026-10-22) and given a verdict on the model's label, an angle, and a policy direction; no human review yet. Years are hearing held years. Direction resolves the polarity of support and concern: a record favors stronger consumer privacy and anti-spam protection or less privacy or anti-spam regulation, or neither (shown in neither panel).
